FLUIDAIRE AUTOMATION
INDUSTRIAL AUTOMATION SOLUTIONS

Fluidaire Automation Named Official AVENTICS™ Premier Partner

Delivering priority local inventory, factory-backed application engineering, and next-generation pneumatic automation solutions across Kentucky and Southern Indiana.

WHAT PREMIER PARTNER STATUS MEANS FOR YOUR FACILITY

Priority Local Stock & Fast Fulfillment

Expanded Louisville shelf inventory on high-demand cylinders, directional valves, FRLs, and fittings to minimize machine downtime.

Factory-Trained Application Engineering

Direct technical support from Fluidaire Automation specialists backed by Emerson's global pneumatic engineering team.

Custom Sub-Assemblies & Valve Manifolds

Pre-assembled, tested valve islands and pneumatic control panels built to specification and ready for rapid installation.

Smart IIoT & Energy Efficiency Audits

Air-flow monitoring and predictive diagnostics to cut compressed air waste and prevent unplanned production stops.

FEATURED AVENTICS™ PRODUCT PORTFOLIO

Product Category	Key Series & Technologies	Industrial Applications
Valve Systems & Manifolds	XV03 / XV05, Series 501–503, 2035 Series, G3 Electronic Fieldbus, Mark Series	High-speed packaging, assembly automation, material handling
Pneumatic Cylinders & Actuators	ISO 15552 PRA/TRB, Series CCI, Rodless RTC, Guided, NFPA	Clamping, pressing, linear positioning, washdown lines
Air Preparation (FRLs)	650 Series, AS1-AS5 Series, Regulators, Lubricators, Filters, Safety Dump Valve, etc..	Clean dry air conditioning, safety exhaust, pressure zoning
Smart Pneumatics & IIoT	AF2 Flow Sensors, ED02/ED05 Series, Proportional Valves	Compressed air leak detection, precision pressure control
